# Want Advertising "Knack" Has Become an Essential Part of Good Housewifery

Only a woman who is a "good executive" is a "successful" wife. A woman may be a "good wife" simply because she is a good woman; but she is not a "successful" wife unless she is a good manager—unless she has "executive knack"—the ability to do things in the easiest and best way; the ability to reduce home-annoyances to their lowest terms; to "keep things running"—not merely as

smoothly as her husband does in his office, but a great deal more so. She must manage her home so well that no one would suspect that it was managed at all.

More than half of the "want ads." are written by women; and are aimed to smooth out the rough places in home-making; to erase the little vexations and worries of the day; to keep the "pot boiling", the purse full, the "old things", from accumulating, the domestic machinery from getting rusty.

She has learned that by advertising for a music teacher for her little girl she can not merely find

the right one, but can secure the right rate; that by having a dozen applicants for the place of gardener she can "pick and choose" and make reasonable terms; that by advertising for a lodger she can get an agreeable one and one who is "good pay;" that by advertising the household things which are no longer needed she can find the best markets for them.

THE ABOVE RATE IS FOR BOTH MORNING AND AFTERNOON EDITIONS.
